

Off-Grid Power for Your Weekend Hideout

Designed for modest power and energy storage requirements, the SystemEdge Cabin Series feature OutBack's FLEXpower ONE or FLEXpower Radian integrated systems and EnergyCell Nano-Carbon batteries. Perfect for off-grid weekend cabins or modest-load permanent residences, the Cabin Series delivers enough power and storage to support a typical load profile made up of a continuously running refrigerator, 10 lights, a ceiling fan, computer and well pump.*

WHY CHOOSE SYSTEMEDGE?

Designed for convenience, value and flexibility, OutBack Power's SystemEdge pre-bundled packages take the guesswork out of selecting the right combination of energy storage and power electronics by delivering five distinct advantages:

- 1 **Single-Brand Solution**
- 2 **Advanced Technology**
- 3 **Deliberate Design**
- 4 **Package Pricing**
- 5 **Multiple Options**

For more information on SystemEdge packages contact your OutBack Power representative, local solar installer or visit www.outbackpower.com.
